PROJECT ACCOMPLISHMENTS:

Project Title: Memories Visual Studio   **Duration: 6**month

This is a website for Memories Visual Studio where the customers can book their functions online and view the relevant details about the studio. The users can also place enquires through this

website. We have also developed admin page where admin can manage the booking's details, view registered user details and functions confirmation.

Technologies used: JavaScript, Php, MySql

Project Title: Dentalcare Information System   **Duration: 6**month

This is a website for A smart dental care system that helps for doctors in their works and in similar way it helps patients as well. Instead of going to Dental Clinics we can take appointments online is the advantage of the system and also computerize the maintenance of the patient and doctor details, pharmacy and billing section in the hospital. The proposed system is multi-user system, which share a common pool of resources (peoples).

Technologies used: JavaScript, HTML, MySql, AJAX, JSP
